**Subject:** RE: Atmospheric Water Generator/Call-in Ex. 5 - Attorney Work Product Code: Ex. 5 - Attorney Work Product

Dear All,

I have attached a draft project plan which outlines the general plan for work related to AWG. I can walk through this quickly to start the meeting if the group is interested. I also attached the draft of the SOW written in the format for CRADAs since the project plan is based on collaboration with companies and CRADAs are the selected approach. Both documents certainly need refinement, but wanted to get the group's concurrence on the general path before we spend more time on the details. The documents do not define timeline as yet, but we can discuss in today's meeting. From the ORD side, we are prepared to initiate the work as soon as CRADAs are established and equipment is ready to test. Would need a minimum of 3 months of operation to evaluate water quality.

Look forward to talking at 130.
